lilypond-book Test Suite

‘`include.ly`’

‘`include2.ly`’

\input texinfo

Different paper sizes for documentation.

This is a sample of a small papersize, which is useful when you want to add a `\book{}` around some input.

```
\book {
  \header {
    title = "A scale in LilyPond"
  }
  \score {
    \relative c' {
      c4 d e f
    }
  }
}
```

Music engraving by LilyPond 2.14.2—www.lilypond.org

Here is a different paper size, and a changed tagline.

```
\book {
  \header {
    title = "A scale in LilyPond"
    tagline = "... music notation for Everyone"
  }
  \score {
    \relative c' {
      c4 d e f
    }
  }
}
```

A scale in LilyPond

... music notation for Everyone
